12. When selecting the list of suppliers to be provided the opportunity to quote, District of Barrington personnel will make every effort to ensure a fair and open process is followed. While District of Barrington personnel are expected to invite only qualified suppliers, they are not to consistently invite bids from only one or a select group of suppliers. Invitations and bidding opportunities are to be equitably distributed among all potential bidders in an area, and all interested and qualified suppliers are to be evaluated on a consistent and equitable basis. Where increased competition is appropriate, District of

¹ Purchases under \$1,000 do not require a quote. If one exists, they must be purchased under a standing offer provided it would provide best value. Director's must approve such purchases and appropriate documentation (e.g. receipts, invoices) must be kept.

All public tender opportunities must be posted on the Province of Nova Scotia Procurement Web Portal. District of Barrington personnel may wish where appropriate to also advertise in local, provincial, or national media; however, there is no obligation to do so. In addition, a notice of tender opportunity may be sent to selected suppliers where required to ensure an adequate degree of competition.

15. *Alternative Procurement Practices*

In order to balance the need for open, competitive process with the demands of urgent or specialized circumstances, Alternative Procurement Circumstances have been developed. These circumstances must be used only for the purposes intended and not to avoid competition or used to discriminate against specific suppliers. To ensure appropriate use, each circumstance must be documented by District of Barrington personnel stating the rationale permitting the Alternative Procurement Circumstance, and signed by the CAO. All documents must be filed and maintained for audit purposes. See Appendix 2 for a list of the Alternative Procurement circumstances, as well as further requirements on documentation.

Suppliers can find out how their proposal scored against published criteria, obtain comments on their bid, and gather information on how future bids may be improved. Bids are not compared to others, nor will information on other bids be provided.
- f) *Supplier Complaint Process (SCP)*

When a supplier is not satisfied with the information provided in a supplier debriefing, the supplier may file a complaint in accordance with the Supplier Complaint Process as defined in the Public Procurement Act. The SCP is not a dispute resolution process, but rather is intended to handle supplier complaints and to improve faulty or misleading procurement processes. The SCP is an integral part of a fair and open procurement policy.

Appendix 3 – Procurement Tools

Below is an outline of some of the various tools available for use when issuing a public tender:

All public tenders are to contain the Disclaimer contained in Appendix 4.

1. *Request for Proposal (RFP)*

Used when a supplier is invited to propose a solution to a problem, requirement, or objective. Suppliers are requested to submit detailed proposals (bids) in accordance with predefined evaluation criteria. The selection of the successful proposal is based on the effectiveness, value, and price of the proposed solution. Negotiations with suppliers may be required to finalize any aspect of the requirement.

2. *Request for Construction (RFC)*

Used to publicly tender for a construction, reconstruction, demolition, remediation, repair, or renovation of a building, structure, road, bridge, or other engineering or architectural work. When a supplier is invited to bid on a construction project the tender documents usually contain a set of terms and conditions and separate bid form that apply to that specific project. Suppliers are requested to submit a response (bid) in accordance with predefined criteria. The selection of the successful proposal is based on a number of factors as described in the tender documents. A request for construction usually does not include professional consulting services related to the construction contract, unless they are included in the specifications.

3. *Request for Quotation (RFQ)*

A request for quotation on goods or products with a minimum specification. Award is usually made based on the lowest price meeting the specification. An RFQ does not normally but may sometimes include evaluation criteria.

4. *Request for Standing Offer (RSO)*

A public tender to provide commonly used goods or services. The term of the standing offer can vary in duration but will be clearly defined in the tender documents. RSO's may include evaluation criteria depending on the requirement.

5. *Request for Expression of Interest (REI)*

The Request for the Expression of Interest is similar to the Request for Proposal and is sometimes referred to as a Pre-Qualification, where suppliers are invited to propose a solution to a problem. The REI, however, is only the first stage in the procurement process. Bidders responding to the REI will be short listed according to their scoring in the evaluation process. The short listed firms will then be invited to respond to a subsequent Request for Proposal. A REI does not normally include pricing as price is a key evaluation criteria used in the second stage RFP process.

Appendix 4 – Disclaimer

The Municipality reserves the right to waive any formality, informality, technicality or non-compliance in any tender.

In evaluating tenders the Municipality reserves the right to consider, among other things, the greatest value for money based on quality, service, price, experience and local preference. The Municipality reserves the exclusive right to determine the qualitative aspects of all tenders relative to evaluation criteria and to rely on any evaluation criteria which, in its sole discretion, it considers to be in its best interest.

The Municipality is not liable for any costs associated with responding to the tender.

The tenderer, in submitting a tender response, has accepted the privileges and reservations of rights set out herein and agrees to be bound by same.
