

GARBAGE BINS - PRIVATE ROADS

Upon application by residents residing on a private road containing six (6) or more year-round residences the Municipality will construct an appropriate size garbage bin if the residents of the private road agree to pay for the cost of the materials involved and it shall be the responsibility of the residents to maintain the garbage bin once supplied.

As an alternative to the above procedure the Municipality is prepared to cover 50% of the cost of material to a maximum municipal cost of \$175.00 if the residents are prepared to cover the other 50% of the cost and have the bin constructed and be responsible for it thereafter.

Approved January 13, 1993
