

**POLICY TO ELIMINATE CONFLICT OF INTEREST
REGARDING
MUNICIPAL CAPITAL PROJECTS**

In order to eliminate possible conflict of interest or perceived conflict, it shall be the policy of the Municipal Council when any major capital projects are being undertaken, to attempt to engage the services of an independent outside Building Inspector.

The terms and conditions of the engagement shall be at the discretion of Council and the duties and responsibilities given to the Building Inspector shall terminate upon issuance of the Occupancy Permit or such other terms as determined by Council.

In the case that no satisfactory independent outside Building Inspector is available, the Building Inspector employed by the Municipality shall conduct inspections as required and issue such permits at his discretion as may be required.
