From: Friends Cape Sable Lighthouse

Good day Lesa: On behalf of the Friends of the Cape Sable Lighthouse

I would like to advise Council that we are willing to let the Municipality of Barrington perhaps through the Cape Sable Historical Society to lease property at the Hawk for the purposes of erecting a structure to house the old Cape Sable Lens. We will continue to oversee the placement for the base (concrete) and the structure itself is put in place. I feel this is a better fit because our group may not continue for the long run as our only mandate was to see that the existing light at Cape Sable was brought back to a new condition, which it has. The lens would also become property of either MOB or the Historical Society (whichever you decide). In trust this will be acceptable but in any event we will wait for your response.

Leigh B. Stoddart—President Friends Cape Sable Lighthouse
