

Dear local businesses,

My name is Josie Hatfield, a grade 11 student at Barrington Municipal High School. I have been accepted into a month long summer program called SHAD. Only 950 out of 2500 youth get accepted into this amazing program, and I am lucky enough to be one of them. SHAD is a STEAM (Science, Technology, Engineering, Art, Math) based program where aspiring change makers spend a month of the summer learning leadership skills, taking lectures from an range of college professors, gaining confidence, meeting like minded people from all across Canada, and help in furthering their education. This program is a amazing opportunity but can also be very costly. The program itself will cost \$5700. I am determined to fundraise enough money to make this amazing opportunity possible. If you are interested in sponsoring please email joshat2002@hotmail.com. All cheque's can be made out to SHAD.

Thank you,
Josie Hatfield
