Barrington Municipal Council,

On Behalf of the Shelburne County ATV Association we are asking for help to maintain the Multi -purpose trails in the Barrington area that are well utilized. The chamber of commerce decorated our trail for Halloween from the Wireless Road to the former Old School House property for the children of the Barrington Area to do a Halloween walk. We graded this area with our tractor before the walk but without proper gravel on the trail, it makes it difficult to walk on. This is just one example of the cost of maintenance for gravel that the ATV club cannot afford.

Please consider working with the Shelburne County ATV members to construct a plan to begin replacing the gravel on our trails this spring in the Barrington Municipality.

Thank-you

Joel Goreham

Former president of the SSAA.

Shelb Co. ATV Assoc.
