Is it possible to have a streetlight and a crosswalk between Bay Vista apartments and Pizza Delight after the tragedy on Dec. 3? It has been talked about by many who cross the road in that area and there are 4 apartment buildings with many seniors and disabled that cross the road to go to Pizza Delight. It is dark at night with no streetlights. My mom is disabled and lives at Bay Vista and I never take her at night because it is not safe to push a wheelchair across the road. Please consider a streetlight and cross walk in that area. 1 life lost is too many.
