RECREATION CENTRE DESIGN

In advance to the meeting members were provided with 3 design options for the new Recreation Centre as provided by SNM Architect Ltd, as a result of our public engagement meeting held on March 7, 2019 and discussions with staff and Council.

An estimated cost of \$340.00 per sq. ft. has been determined based on Class “D” estimates which are established when a project is at the “Conceptual Design” stage.

Option A - Full Gym and Walking Track – 14,000 sq. ft.

Option B - Multi-Purpose and Walking Track – 10,000 sq. ft.

Option C - Multi-Purpose and Waling Track – 9,050. sq. ft.

During discussion it was noted that all options listed above are more than the desired budget of \$2,500,000.00. Once the design has been finalized then the Architects can provide a more definite price.

Much discussion took place regarding the Options provided by the Architects and location of the new building.

It was agreed that the CAO request the Architects to provide information on the cost to connect the new recreation centre to the Arena and the cost to locate the building next to the Arena. This information will be presented back to the Committee for further discussion.
