Subject: Marathon Committee

Hi Misty,

I'm just writing to ask if you would take my name off the committee. I'm going to resign as a member. As much as I love the marathon and stand behind it and will register, I cannot in good conscience be part of planning an event that excludes a group of people from participating in an outdoor activity that is meant to be inclusive of all and one of the safest things to do during this pandemic. I know the committee's hands are tied and wouldn't be requiring the pov if they didn't have to, but my conscience just wont let me do it. I wish you guys all the best and will more than likely see you on race day.

Good luck planning!

Jennifer
